TRAFFIC  
CONTROL  
REPORT

11- Western SR# 71839  
Hindry Av between  
111<sup>th</sup> St & Imperial Hwy

**PARKING RESTRICTION**

**DETERMINATION**

That a "Tow Away No Parking 10 PM to 6 AM, Nightly" parking restriction be authorized on both sides of Hindry Avenue between 111<sup>th</sup> Street and Imperial Highway. (Section 80.69 (b) L.A.M.C.)

**DISCUSSION**

The Department of Transportation received a letter from Captain Nicole L. Alberca of the Los Angeles Police Department (LAPD)'s Pacific Community Police Station for the installation of a "Tow Away No Parking 10 PM to 6 AM, Nightly" parking restriction on both sides of Hindry Avenue between 111<sup>th</sup> Street and Imperial Highway. The letter from LAPD indicated that there have been numerous complaints of drug and vice paraphernalia littering the streets, trash and broken glass in the street, people sleeping in their vehicles, and abandoned vehicles. The letter also stated that other restrictive remedies have failed to eliminate this problem.

A traffic engineering study of this location has been conducted. The study included a field investigation of physical conditions and existing traffic controls, and field observations.

In the Mobility Plan 2035 of the City's General Plan Transportation Element, Hindry Avenue is classified as a "Local Street - Standard". The majority of frontages along both sides of this street are commercial properties. The Department defers to the LAPD for determination regarding parking restrictions due to non-traffic related public safety issues. LAPD has identified this area as a public safety concern due to oversize vehicles parking there. The installation of parking restriction, as described in the Determination, will improve the public welfare and promote the quality of life, and is therefore, justified.
